WHERE ARE WE SPIRITUALLY? THE FOUR STAGES OF SPIRITUAL GROWTH

EXPLORING → GROWING → DEEPENING → CENTERED

EXPLORING
Affirmed belief in God, though not sure what faith claims they would make about Christ. Generally, faith is not significant in their day-to-day life.

GROWING
They are committed to the Christian faith but still have many questions and have not developed a personal relationship with God in Christ.

DEEPENING
Transition to value a personal relationship with God over their church membership. They feel close to Christ and depend on him daily for guidance.

CENTERED
A personal relationship with God in Christ is the most important relationship in their lives, but that doesn't mean their spiritual journey is over.

Consider themselves to be at an early, less mature stage of spiritual growth. Parishioners that fall into the first two stages are highly dependent on the church—and specifically the clergy—to help teach, guide and mentor.

FOUR CATALYSTS FOR SPIRITUAL GROWTH

1. Engagement with scripture
2. Transforming power of the Eucharist
3. A deeper prayer life
4. The heart of the leader
